About the Riverwind Foundation

The mission of the Riverwind Foundation is to unite efforts to minimize resident and visitor impacts on the Greater Yellowstone and other ecosystems now and for future generations.

Through our destination management and sustainability programs, the Riverwind Foundation has been able to:

Train and assist over 400 businesses and organizations in sustainability planning and practices, including doubling the Sustainable Business Leaders.

Inventory the sustainability and responsible tourism plans, policies, and activities of our entire community and destination.

Provide in-depth sustainability technical assistance and assessments to increase sustainability performance and recognition for the most committed local sustainability leaders in our community through the BEST Certification Program.

Publish and distribute the Jackson Hole Sustainability Code of Conduct, Jackson Hole Sustainability Report Card, Sustainable Business Guide, and Green Matters in Jackson Hole magazine to over 100,000 visitors and residents.

Support the development of our community's Sustainable Destination Management Plan.

Through this work, we've contributed to our community's efforts to:

Reduce energy, fuel, and water use; waste, and carbon emissions

Increase profitability and employee retention

Improve air and water quality

Reduce traffic and parking congestion

Protect wildlife and wild lands

Grow the next generation of green leaders

Business Emerald Sustainability Tier (BEST) Program

The BEST Program was created to provide an opportunity and platform for those Sustainable Business Leaders that want to elevate their sustainability practices to higher levels of environmental stewardship, social responsibility, and economic vitality. The standards in the BEST program are comparable to the world's most rigorous and comprehensive environmental, community, and economic sustainability criteria. Businesses and organizations that successfully achieve BEST Certification have institutionalized sustainability in their planning, operations and administration, and staff training and customer education in areas including:

Purchasing and Waste Management
Energy Efficiency & Renewables, and Transportation & Fuels
Water Conservation, Building and Landscaping
Community Investment & Cultural Support
Health & Safety
Diversity, Equity, & Inclusion
Conservation & Resource Protection
Marketing & Communications

For more information about the BEST Program, please visit riverwindfoundation.org/best or contact Tim O'Donoghue, Executive Director, at Tim@riverwindfoundation.org.

Sustainable Business Leaders (SBL) Program

The Sustainable Business Leaders program is Jackson Hole's green business recognition program and membership-based association that has been managed by Teton County Integrated Solid Waste and Recycling (ISWR) since 2007. The Riverwind Foundation is Teton County ISWR's community partner in managing the Program, including conducting sustainability education and enrollment sessions with business and organizations.

Through these sessions, program communications and webinars, information and resources, and grant funding, Program members are supported in strengthening their sustainability practices, lessening negative environmental and social impacts, and increasing profitability.

For more information about how to become a Sustainable Business Leader, please visit riverwindfoundation.org/sustainablebusinessleaders or contact Carlyann Edwards, Program Manager, at Carlyann@riverwindfoundation.org.

BEST CERTIFIED BUSINESSES

Bentwood Inn

Our iconic log lodge exemplifies the spirit of Jackson Hole with exceptional service, the highest attention to detail, and meaningful sustainability.

The Bentwood Inn is an award-winning log lodge, committed to sustainable tourism leadership through action and impact that also delivers a wonderful guest experience.

Economic: The Bentwood Inn is a founding member of 1% for the Tetons and is proud to support innovative conservation efforts in the greater Tetons region.

Environmental: The Bentwood Inn is committed to operating in a sustainable manner, actively working to measure and reduce our environmental impact in every area of operation, including water, energy, solid waste, landscaping and food preparation. In the past year we have consciously planted a diverse mix

of over 300 trees on the property, added a lot of willow for moose, and taken down obstructive fencing to encourage wildlife passage.

Community: The Bentwood Inn emphasizes local and organic food and is proud to support Vertical Harvest, Cosmic Apple, Snake River Roasters, Jackson Hole Buffalo and Slow Food in the Tetons among many others.

307-739-1411
bentwoodinn.com/sustainable-lodging

Elk Refuge Inn

We pride ourselves that our decision making includes the measure of creating positive impact for our team, the community and the environment.

Ideally positioned directly across the National Elk Refuge, our hotel immerses our guests in a true Jackson experience whether that's within the comforts of our rooms, the incredible views from our rooms or the warm hospitality of our team.

Economic: We have clearly experienced the unintended economic benefits of subscribing to SBL (formerly RRR), particularly Reduce. Being environmentally sustainable is not conflicting to being profitable, it is exactly the opposite. By reducing waste, consumption and energy, we reduce costs and therefore increase profit.

Environmental: It's imperative to recognize and implement sustainable practices to ensure we are caring for our beautiful community. We purchase green power, only use LED lights and energy saving measures are strictly adhered to. We have decreased water consumption significantly by having low flow water fixtures and toilets, and decreased dumpster service by 50%. Our efforts are shared with our guests and they are engaged in the process.

Community: Adding sustainability to the business priorities often sounds overwhelming but it is super important to us. We have put in the hard work to show its doable not only for us but so that more businesses in the community can see that it is achievable and equally want to contribute. We were the first BEST certified business in Teton County and continue to lead with sustainability initiatives so that other businesses are inspired to join us.

elkrefugeinn.net

BEST CERTIFIED BUSINESSES

Flat Creek Ranch

Your own private wilderness, for generations to come.

We are a luxury wilderness guest ranch completely surrounded by the Bridger Teton National Forest. With 5 historic cabins that have been expertly refurbished and lovingly cared for, Flat Creek Ranch offers an exclusive opportunity to experience the pristine wild environment that surrounds us. Join our family and expert guides for horseback riding, hiking and fly fishing on crystal clear spring creek and our private 60-acre lake.

Economic: We believe in putting people and planet before profit. We believe that you can ensure beautiful places are preserved for generations to come with proper planning and vision. We are a proud sponsor of the Riverwind Foundation and the \$1 for Jackson guest giving program and Sustainable Business Leaders in Teton County. Our environmental practices help keep our utilities down such as

being 100% off the grid solar system, fresh water pumped and filtered on site, and new septic system.

Environmental: Since Flat Creek Ranch was homesteaded in 1921, maintaining its natural beauty has been one of the highest priorities including environmental easements that last in perpetuity. We take special care of the native landscaping, maintain our fresh water supply, and live among the wildlife that are our neighbors.

Community: Each year we strive to make 50% of all purchases within 500 miles. From beef to furniture, we do our best to support the local community and use suppliers who have a similar ethos. Being a part of a larger community that is striving to improve sustainability is shared with our guests and staff and ultimately, they take that sense of community with them!

307-733-0603

flatcreekranch.com/sustainability

Hidden Hollow

Find your refuge in our green conscious community exemplifying social, physical, and environmental awareness, in your sense of place.

We are committed to a responsible approach to our sustainable practices to offer our residents and community, a safe and healthy place to call home. Our buildings contain no VOC building materials. For our certification, we installed over 150 historical photographs with descriptions from the Historical Society. Our "Old Jackson Meets New Jackson" initiative throughout our buildings gives our community a true sense of place.

Economic: With one of the largest geothermal systems in the valley, our carbon neutral system is so efficient, it not only saves our residents money, but has a trickledown effect as they also participate in the green power program with Lower Valley. We pride ourselves on an environmentally preferable program which considers

human health, price, packaging, and recycled waste content.

Environmental: We use a window cleaning system that uses purified water to clean our exterior windows without emitting any harmful chemicals. Exterior site management is one of our top priorities. By utilizing preventative maintenance, green irrigation, and strategic plant selections which require less water, we are assuring a sustainable and green future. Electric landscaping equipment eliminates noise pollution and carbon emissions.

Community: Our residents have helped increase sustainability by engaging actively in our recycling program and achieving a 40% diversion rate. Through the "Take the Hidden Hollow Green Pledge" initiative, our residents use Lower Valley Energy's green energy program to operate the community utilizing 100% renewable energy. Our location also brings our residents near the local pathway system to bike, walk and reach the nearby bus station in a matter of minutes.

BEST CERTIFIED BUSINESSES

Jackson Hole Airport

The power of place.

We are striving to be a globally recognized leader delivering a unique guest experience derived from our rich western history, an unwavering commitment to environmental stewardship, safety, security, and a culture based on people serving people.

Economic: JAC reviews its myriad business decisions through the lens of the “triple bottom line,” which includes social, environmental, and financial impacts weighted based on economic viability, environmental protection, and social equity.

Environmental: The Jackson Hole Airport is dedicated to becoming an industry leader in environmental stewardship, green building initiatives, and sustainability. The Airport’s unique location inside Grand Teton National Park requires extra measures to preserve our natural environment.

Community: Implementing creative initiatives at JAC has helped increase sustainability measures and strengthened our cooperative partnerships with the community and Grand Teton National Park.

(307) 733-7682

jacksonholeairport.com/community

Jackson Hole Chamber of Commerce

One of our most proud accomplishments was receiving our BEST Certification and our strong capacity to communicate the importance of both sustainability in the workplace and sustainable tourism to our fellow businesses and those visiting Jackson Hole.

The Mission of the Jackson Hole Chamber of Commerce is to champion the interests of local businesses, enhance their prosperity and strengthen the year-round economic climate of Teton County.

Economic: We lead by example and show our members that this path to sustainability in the workplace is achievable. By focusing internally, we’re able to better develop the economic and environmental impacts of our daily business workings.

Environmental: Throughout the process to become BEST certified, we have learned and begun implementing the best practices to minimize waste, expand our knowledge of being green, reduce in-office air pollution, and make changes that affect our footprint as an organization.

Community: Externally, we’re able to contribute to the community’s sustainability efforts by both being a resource for other businesses striving to achieve a heightened level of environmentally sustainable operations and directly educating and shaping behavior modeling for millions of visitors we see each year in our multiple Visitor Service locations.

307-733-3316

jacksonholechamber.com/about-jackson-hole/sustainability/green-in-the-workplace/

BEST CERTIFIED BUSINESSES

Jackson Hole Wildlife Safaris

First Jackson Hole based tour company with a sustainability certification.

Jackson Hole Wildlife Safaris is a guide-owned and operated wildlife safari company that strives to educate, entertain, and connect our guests with this amazing place we call home.

Economic: We have seen a strong response to our sustainability practices and certification with guests telling us they chose us over other companies for this reason alone! We have added high paying year round positions to our business every year.

Environmental: We provide high quality environmental education to thousands of guests each year while encouraging a passion for and support of conservation of wild places.

Community: We are proud to have supported sustainability efforts at all levels since our founding. From participating in the founding steering committee for the Jackson Hole and Yellowstone Sustainable Destination program to continued financial and political support for destination level sustainability initiatives.

307-690-6402
jacksonholewildlifesafaris.com

Jackson Lake Lodge

Preserve. Protect. Inspire.

With a mission to preserve, protect and inspire, BEST Certified Jackson Lake Lodge and parent Grand Teton Lodge Company are committed to a comprehensive systematic approach to sustainable business practices that preserve the environment, provide quality service, and offer healthy and safe places for guests and employees within Grand Teton National Park.

Economic: People often conflate sustainability and environmentalism, but true sustainability encompasses a focus on the triple bottom line, considering the health and profitability of the business, service to the local community, and a commitment to preserve and protect natural resources. We believe that, through sustainable management of these operations, we offer an opportunity for people to gain education and appreciation for this special place. Hopefully, they will take the values of stewardship of our earth's natural resources with them when they leave here and

go home.

Environmental: As part of Vail Resorts, we're proud to be included in the company's bold goal to reach a zero net operating footprint by 2030. One of the ways we're supporting that goal locally is through our collaboration with Haderlie Farms, Teton County Integrated Solid Waste and Recycling, the National Park Service, Subaru of America, National Parks Conservation Association, West Bank Sanitation, and Signal Mountain Lodge to bring commercial scale food waste composting to Jackson Hole. It is the first program of this scale in the area, and Grand Teton Lodge Company's composting operation is the largest in the valley. Since the summer of 2018, Jackson Lake Lodge has contributed significantly to Grand Teton Lodge Company composting of more than 360 tons, or 720,000 pounds, of food waste.

Community: We don't only work here, we live here, and we are proud to be able to contribute to programs and projects that help make our local community such a special place to live, work, and visit. In addition to the multitude of local organizations we support through financial grants and volunteer hours, Grand Teton Lodge Company is the largest and longest-standing corporate donor to the Grand Teton National Park Foundation, the park's nonprofit fundraising partner which enables high-impact projects that the park would not be able to achieve on its own.

gtlc.com/the-park/epic-promise

BEST CERTIFIED BUSINESSES

Rendezvous River Sports

Reduce, Reuse, Recycle and be good stewards of the rivers and lakes we are privileged to enjoy.

Rendezvous River Sports teaches respect and enjoyment of the waterways of the Greater Yellowstone Region through professional instruction, excellent customer service, environmental stewardship and sustainability for future generations.

Economic: The benefits of sustainability go beyond typical capitalist ideas of quarterly profits - it is an investment in our collective future and the long range economic benefits are something more businesses in our world need to understand and embrace. Rendezvous has a deep understanding of this and is willing to spend more to achieve a better outcome.

Environmental: We all benefit as we are fortunate to live, work and recreate in one of the most beautiful and special places in the world. Every business in Jackson Hole

must respect this and do the extra work needed for the long-term health of our local and world environment. We all benefit from ensuring the quality of outdoor experiences we all share.

Community: Rendezvous enjoys being at the center of both the paddle sports community in the West and the Jackson Hole Community. A focus on sustainability helps us enrich our communities and comes back to us through unrivaled loyalty from our customers throughout the region. We will always help others that share our values by supporting nonprofits, events, people in need and actual stewardship work on the ground.

307-733-2471

jacksonholekayak.com/en/stewardship/

Signal Mountain Lodge

Aramark Destinations

Signal Mountain Lodge is proud to partner with the National Park Service in order to preserve and protect Grand Teton National Park for current and future generations.

Signal Mountain Lodge recognizes the obligation to our guests, employees, and park visitors, of current and future generations, to operate in a manner that is not only environmentally responsible but helps set the standard for the lodging industry. Since the 1980's, Signal Mountain Lodge has implemented policies and procedures that address waste reduction, re-use of goods, recycling, environmentally preferable purchasing, integrated pest management, water quality protection, energy, and water conservation and other concerns that affect the resources of Grand Teton National Park and our planet.

Economic: Our sustainability program helps us to achieve the standards and expectations that have become the norm for our guests. A robust environmental program has increasingly become a driving factor into guests' decisions of where to stay and which business to support. We believe our commitment to the environment has won us the trust and patronship of many returning customers.

Environmental: The immediate benefits of a sustainability program are diverting waste from landfills, protecting water ways and conserving natural resources. Our commitment to the environment has influenced the behavior of our upstream providers over the years. There are now many more options for environmentally preferable products and services. When companies band together to demand sustainability, we can truly drive the market towards this goal.

Community: Leading by example and setting the standard is the best form of community outreach we can offer. When people see the efforts we make, both in time and resources to our sustainability program, it can truly change their perspective. This can offer insights into the importance of sustainability and the role that we all play within our natural world.

BEST CERTIFIED BUSINESSES

Teton Raptor Center

Where conservation and sustainability take flight!

As an organization committed to advancing raptor conservation through education, research, and rehabilitation, Teton Raptor Center recognizes that we all have an important role to play in evaluating and modifying our daily activities to ensure they support a vibrant and healthy natural world for birds, for people, and for the planet.

Economic: As a nonprofit organization, we are committed to making the most of every earned and donated dollar to achieve the greatest impact for raptor conservation, which means being thoughtful, intentional, and careful with our spending, while at the same time ensuring that our purchases are supporting businesses that reflect our values.

Environmental: The heart of our work is caring for the natural world. We take care of injured, ill, and orphaned birds 365 days per year, with ailments that are most often consequences of unintended human interference. This makes our team extra-committed to minimizing environmental impacts and maximizing practices that support human and bird co-existence on a healthy planet.

Community: Community is a core value for Teton Raptor Center.

"As we strive to serve the birds and people in our community and beyond, let us act with integrity, show our passion for our work, and seek to inspire conservation action." (from Teton Raptor Center's core values statement).

Yellowstone National Park Lodges

Xanterra Travel Collection

Legendary Hospitality with a Softer Footprint.

Yellowstone National Park Lodges is the primary concession operation in Yellowstone National Park. We provide lodging, camping, food and beverage, and activities and transportation services to the multitude of visitors who come to the park each year.

Economic: Our sustainability initiatives have made business operations more efficient, reduced utility costs, ensure long-term business viability, and helped to build resilient communities.

Environmental: Through our policies and practices, we've helped maintain clean air and water, reduced waste, and helped contribute to wildlife habitat and preserve the ecosystem.

Community: Our sustainability programs use of local producers and align with local community partners who share our values for environmental and social responsibility, and enhancing the visitor experience.

JH Climate Action Collective

A non-profit to move community action forward for a more secure future & highlight good policies and good works (such as the Sustainable Businesses you are reading about).

- Drafting a Teton County Climate Action Roadmap to inform you of ongoing actions taken and many possibilities moving forward.
- Encouraging each of us to be part of the carbon footprint diminishment solution, beginning with relatively simple actions:

Learning

Subscribe to Union of Concerned Scientist's work, watch Patrons on the Weather Channel, read, and much more.

Being mindful of your impact

Reduce vehicle trips from your household, use less plastic and more reusable material, turn off lights, unplug appliances when not in use, offset airline travel.

Paying attention

To any investments or purchases, and be sure they support the life you seek.

jclimateactioncollective.org

Keep It Whole.

Wisdom

Treasure wildlife, wildlands, and community.

Harmony

Embrace mind-heart-body-spirit balance in oneself and for ecosystem health.

Ø Waste

Refuse products that create waste and pollution.
Reduce consumption - Recycle - Reuse.

Local

Connect and be kind to this special place.

Education

Share ideas for environmental, social, and economic prosperity.

Think We.

The Jackson Hole Sustainability Code of Conduct
www.RiverWindFoundation.org
