Riverwind Foundation

About The Riverwind Foundation

The mission of the Riverwind Foundation is to unite efforts to minimize resident and visitor impacts on the Greater Yellowstone and other ecosystems now and for future generations.

Through our destination management and sustainability programs, the Riverwind Foundation has been able to:

- Train and assist over 400 businesses and organizations in sustainability planning and practices, including doubling the RRR Business Leaders to over 200.
- Inventory the sustainability and responsible tourism plans, policies, and activities of our entire community and destination.
- Provide in-depth sustainability technical assistance and assessments to increase sustainability performance and recognition for the most committed local sustainability leaders in our community through the BEST Certification Program.
- Publish and distribute the Jackson Hole Sustainability Code of Conduct, Jackson Hole Sustainability Report Card, and Green Matters in Jackson Hole magazine to over 100,000 visitors and residents.

Through this work, we've contributed to our community's efforts to:

- Reduce energy, fuel, and water use, waste, and carbon emissions
- Increase profitability and employee retention
- Improve air and water quality
- Reduce traffic and parking congestion
- Protect wildlife and wild lands
- Grow the next generation of green leaders

The results of these programs in collaboration with key local sustainability stakeholders has resulted in the Riverwind Foundation and our community receiving recognition by the World Travel & Tourism Council as a Tourism for Tomorrow Award 2018 Finalist, National Geographic as a World Legacy Award 2017 Finalist, Green Destinations as a Top 100 Sustainable Destination in 2016, 2017, and 2018, and EarthCheck in achieving Silver Destination Certification in 2020.

For more information about the Riverwind Foundation and its programs and projects, please visit www.riverwindfoundation.org or contact Tim O'Donoghue, Executive Director, at riverwind@wyoming.com.

Reduce, Reuse, Recycle (RRR) Business Leaders Program

The RRR Business Leaders (RRRBL) program is Jackson Hole's green business recognition program and membership-based association that has been managed by Teton County Integrated Solid Waste and Recycling (ISWR) since 2006. The Riverwind Foundation is Teton County ISWR's community partner in managing the program, including conducting sustainability education and enrollment sessions with business and organizations.

Through these sessions, program communications and webinars, information and resources, and grant funding, Program members are supported in strengthening their sustainability practices, lessening negative environmental and social impacts, and increasing profitability.

For more information about how to become a RRR Business Leader, please visit www.roadtozerowastejh.org/business-leader-program or contact Mari Allan Hanna, Riverwind Foundation Project Manager, at mariallan.hanna@gmail.com.

JACKSON HOLE
BEST
SUSTAINABILITY
CERTIFIED

The BEST Program was created to provide an opportunity and platform for those RRR Business Leaders that want to elevate their sustainability practices to higher levels of environmental stewardship, social responsibility, and economic vitality. The standards in the BEST program are comparable to the world's most rigorous and comprehensive environmental, community, and economic sustainability criteria. Businesses and organizations that successfully achieve BEST Certification have institutionalized sustainability in their planning, operations and administration, and staff training and customer education in areas including:

- Purchasing and Waste Management
- Energy Efficiency & Renewables, and Transportation & Fuels
- Water Conservation, Building and Landscaping
- Community Investment & Cultural Support
- Conservation & Resource Protection
- Marketing & Communications

For more information about the BEST Program, please visit www.riverwindfoundation.org or contact Tim O'Donoghue, Executive Director, at riverwind@wyoming.com.

BEST Certified Business & Organizations

Elk Refuge Inn

We pride ourselves that our decision making includes the measure of creating positive impact for our team, the community and the environment

307-200-0981

www.ElkRefugeInn.net/sustainability

Ideally positioned directly across the National Elk Refuge, our hotel immerses our guests in a true Jackson experience whether that's within the comforts of our rooms, the incredible views from our rooms or the warm hospitality of our team.

SUSTAINABILITY BENEFITS

Economic: We have clearly experienced the unintended economic benefits of subscribing to RRR and particularly reduce. Being environmentally sustainable is not conflicting to being profitable, it is exactly the opposite. By reducing waste, consumption and energy, we reduce costs and therefore increase profits.

Environmental: It's imperative to recognize and implement sustainable practices to ensure we are caring for our beautiful community. We purchase green power, only use LED lights and energy saving measures are strictly adhered to. We have decreased water consumption significantly by having low flow water fixtures and toilets, and decreased dumpster service by 50%. Our efforts are shared with our guests and they are engaged in the process.

Community: Adding sustainability to the business priorities often sounds overwhelming but it is super important to us. We have put in the hard work to show its doable not only for us but so that more businesses in the community can see that it is achievable and equally want to contribute. We were the first BEST certified business in Teton County and continue to lead with sustainability initiatives so that other businesses are inspired to join us.

Flat Creek Ranch

Your own private wilderness, for generations to come

307-733-0603

www.FlatCreekRanch.com/sustainability

We are a luxury wilderness guest ranch.

SUSTAINABILITY BENEFITS

Economic: We are a proud sponsor of the Riverwind foundation and the \$1 for Jackson guest giving program.

Environmental: Since Flat Creek Ranch was homesteaded in 1921, maintaining its natural beauty has been one of the highest priorities including environmental easements that last in perpetuity.

Community: Each year we strive to make 50% of all purchases within 500 miles. From beef to furniture, we do our best to support the local community.

Jackson Lake Lodge, Grand Teton Lodge Company/Vail Resorts

Preserve. Protect. Inspire.

3cv07-543-3047

www.gtlc.com/the-park/epic-promise

With a mission to preserve, protect and inspire, BEST Certified Jackson Lake Lodge and parent Grand Teton Lodge Company are committed to a comprehensive systematic approach to sustainable business practices that preserve the environment, provide quality service, and offer healthy and safe places for guests and employees within Grand Teton National Park.

SUSTAINABILITY BENEFITS

Economic: People often conflate sustainability and environmentalism, but true sustainability encompasses a focus on the triple bottom line, considering the health and profitability of the business, service to the local community, and a commitment to preserve and protect natural resources. We believe that, through

sustainable management of these operations, we offer an opportunity for people to gain education and appreciation for this special place. Hopefully, they will take the values of stewardship of our earth's natural resources with them when they leave here and go home.

Environmental: As part of Vail Resorts, we're proud to be included in the company's bold goal to reach a zero net operating footprint by 2030. One of the ways we're supporting that goal locally is through our collaboration with Haderlie Farms, Teton County Integrated Solid Waste and Recycling, the National Park Service, Subaru of America, National Parks Conservation Association, West Bank Sanitation, and Signal Mountain Lodge to bring commercial scale food waste composting to Jackson Hole. It is the first program of this scale in the area, and Grand Teton Lodge Company's composting operation is the largest in the valley. Since the summer of 2018, Jackson Lake Lodge has contributed significantly to Grand Teton Lodge Company composting of more than 360 tons, or 720,000 pounds, of food waste.

Community: We don't only work here, we live here, and we are proud to be able to contribute to programs and projects that help make our local community such a special place to live, work, and visit. In addition to the multitude of local organizations we support through financial grants and volunteer hours, Grand Teton Lodge Company is the largest and longest-standing corporate donor to the Grand Teton National Park Foundation, the park's nonprofit fundraising partner which enables high-impact projects that the park would not be able to achieve on its own.

Jackson Hole Chamber of Commerce

Championing the interests of local businesses, enhance their prosperity and strengthen the year-round economic climate of Teton County

307-733-3316

www.JacksonHoleChamber.com/about-jackson-hole/sustainability/green-in-the-workplace

One of our most proud accomplishments was receiving our BEST Certification and our strong capacity to communicate the importance of both sustainability in the workplace and sustainable tourism to our fellow businesses and those visiting Jackson Hole.

SUSTAINABILITY BENEFITS

Economic: We lead by example and show our members that this path to sustainability in the workplace is achievable. By focusing internally, we're able to better develop the economic and environmental impacts

of our daily business workings.

Environmental: Throughout the process to become BEST certified, we have learned and begun implementing the best practices to minimize waste, expand our knowledge of being green, reduce in-office air pollution, and make changes that affect our footprint as an organization.

Community: Externally, we're able to contribute to the community's sustainability efforts by both being a resource for other businesses striving to achieve a heightened level of environmentally sustainable operations and directly educating and shaping behavior modeling for millions of visitors we see each year in our multiple Visitor Service locations.

Jackson Hole Airport

The Power of Place

307-733-7682

www.jacksonholeairport.com/airport-guide/environmental-initiatives

We are striving to be a globally recognized leader delivering a unique guest experience derived from our rich western history, an unwavering commitment to environmental stewardship, safety, security, and a culture based on people serving people.

SUSTAINABILITY BENEFITS

Economic: JAC reviews its myriad business decisions through the lens of the “triple bottom line,” which includes social, environmental, and financial impacts weighted based on economic viability, environmental protection, and social equity.

Environmental: With our commitment to the triple bottom line and investment in all our environmental initiatives and programs, we have significantly reduced our overall ecological footprint at the Airport.

Community: JAC will continue to be environmentally forwarding thinking - an initiator of sustainability and resiliency technologies, programs, and partnerships that will assist us in our journey to continue to be exceptional stewards of the unique ecosystem we call home.

Jackson Hole Wildlife Safaris

First and only Jackson Hole based tour company with a sustainability certification

307-690-6402

www.jacksonholewildlifesafaris.com/about/sustainability

Jackson Hole Wildlife Safaris is a guide-owned and operated wildlife safari company that strives to educate, entertain, and connect our guests with this amazing place we call home.

SUSTAINABILITY BENEFITS

Economic: We have seen a strong response to our sustainability practices and certification with guests telling us they chose us over other companies for this reason alone! We have added high paying year round positions to our business every year.

Environmental: : We provide high quality environmental education to thousands of guests each year while encouraging a passion for and support of conservation of wild places.

Community: We are proud to have supported sustainability efforts at all levels since our founding. From participating in the founding steering committee for the Jackson Hole and Yellowstone Sustainable Destination Program to continued financial and political support for destination level sustainability initiatives.

Yellowstone National Park Lodges, Xanterra Travel Collection

Legendary Hospitality with a Softer Footprint

307-344-5204

www.YellowstoneNationalParkLodges.com/sustainability

Yellowstone National Park Lodges is the primary concession operation in Yellowstone National Park. We provide lodging, camping, food and beverage, and activities and transportation services to the multitude of visitors who come to the park each year.

SUSTAINABILITY BENEFITS

Economic: Our sustainability initiatives have made business operations more efficient, reduced utility costs, ensure long-term business viability, and helped to build resilient communities.

Environmental: Through our policies and practices, we've helped maintain clean air and water, reduced waste, and helped contribute to wildlife habitat and preserve the ecosystem.

Community: Our sustainability programs use local producers and align with local community partners who share our values for environmental and social responsibility, and enhancing the visitor experience.

Signal Mountain Lodge Forever Resorts LLC

Signal Mountain Lodge is proud to partner with the National Park Service in order to preserve and protect Grand Teton National Park for current and future generations

307-543-2831

www.SignalMountainLodge.com/sustainability

Signal Mountain Lodge recognizes the obligation to our guests, employees, and park visitors, of current and future generations, to operate in a manner that is not only environmentally responsible but helps set the standard for the lodging industry. Since the 1980's, Signal Mountain Lodge has implemented policies and procedures that address waste reduction, re-use of goods, recycling, environmentally preferable purchasing, integrated pest management, water quality protection, energy, water conservation and other concerns that affect the resources of Grand Teton National Park and our planet.

SUSTAINABILITY BENEFITS

Economic: Our sustainability program helps us to achieve the standards and expectations that have become the norm for our guests. A robust environmental program has increasingly become a driving factor into guests' decisions of where to stay and which business to support. We believe our commitment to the environment has won us the trust and patronship of many returning customers.

Environmental: The immediate benefits of a sustainability program are diverting waste from landfills, protecting water ways and conserving natural resources. Our commitment to the environment has influenced the behavior of our upstream providers over the years. There are now many more options for environmentally preferable products and services. When companies band together to demand sustainability, we can truly drive the market towards this goal.

Community: Leading by example and setting the standard is the best form of community outreach we can offer. When people see the efforts we make, both in time and resources to our sustainability program, it can truly change their perspective. This can offer insights into the importance of sustainability and the role that we all play within our natural world.

Bentwood Inn

Our iconic log lodge exemplifies the spirit of Jackson Hole with exceptional service, the highest attention to detail, and meaningful sustainability

307-739-1411

BentwoodInn.com/sustainable-lodging

The Bentwood Inn is an award-winning log lodge, committed to sustainable tourism leadership through action and impact that also delivers a wonderful guest experience.

SUSTAINABILITY BENEFITS

Economic: The Bentwood Inn is a founding member of 1% for the Tetons and is proud to support innovative conservation efforts in the greater Tetons region.

Environmental: The Bentwood Inn is committed to operating in a sustainable manner, actively working to measure and reduce our environmental impact in every area of operation, including water, energy, solid waste, landscaping and food preparation. In the past year we have consciously planted a diverse mix of over 150 trees on the property and taken down obstructive fencing to encourage wildlife passage.

Community: The Bentwood Inn emphasizes local and organic food and is proud to support Vertical Harvest, Cosmic Apple, Snake River Roasters, Jackson Hole Buffalo and Slow Food in the Tetons among many others.

Recreate Responsibly

Show your love for the outdoors: Protect the land, water, wildlife and be kind

PLAN AHEAD

Know where you can stay
Know the regulations
Pack the essentials

KNOW BEFORE YOU GO

Check fire restrictions
Check road and trail conditions
Check weather report

LEAVE NO TRACE

Drive vehicles only on designated routes
Bury Human waste; Pack out Trash
Prevent the spread of invasive species

PREVENT WILDFIRES

Use existing fire rings
Never leave a campfire unattended
Put campfires out – drown, stir, feel

RESPECT WILDLIFE

Properly store all food and trash
Give wildlife space
Carry bear spray

BE KIND

Be friendly towards others
Share the trail – think “we, not me”
Thank those being responsible

Keep It Whole.

Wisdom

Treasure wildlife, wildlands, and community.

Harmony

Embrace mind-heart-body-spirit balance in oneself and for ecosystem health.

Ø Waste

Refuse products that create waste and pollution.
Reduce consumption - Recycle - Reuse.

Local

Connect and be kind to this special place.

Education

Share ideas for environmental, social, and economic prosperity.

Think We.
